

NETWORK SECURITY

Parental Control Premium

HOW CAN TELEFÓNICA TECH HELP?

The best digital security and wellbeing tool for families

This service allows parents to protect and supervise the digital life of the youngest members of the family in a simple way.

We know that every child faces a different set of risks when it comes to managing their digital identity. We have the right tools to help them in any situation and guide parents through their children's digital world thanks to our Parental Control Premium service.

We offer a complete set of tools in one place to protect your children, encourage a balanced use of technology

with proper screen time management, provide a clear view of their actions on the internet and, most crucially, guide them towards a conscious and responsible use of technology.

WHO IS THIS SERVICE FOR?

Residential customers with children between 5 and 18 years of age.

OUR VALUE PROPOSITION

Our service

Parental Control Premium offers parents peace of mind to ensure that their children are secure on the Internet.

It is not only about setting time limits, but also about ensuring that the content our children consume is educational and as nurturing as possible, helping them to learn how to use technology in a responsible way.

Benefits

What does it allow you to do?

This service allows parents to monitor and manage their children's digital lives, providing a secure and educational environment in the use of devices and the Internet:

Protect your children when browsing:

Setting up web filters to access or not, blocking applications and games, monitoring the use of YouTube and Facebook.

Enjoy full visibility:

Monitoring your children's online activity in real time to see who they are talking to and what kind of content they are accessing. Receiving detailed reports.

Encourage healthy digital habits:

Manage your children's screen time by setting daily time limits for their devices and specific applications.

Telefónica Tech's differential value

This service includes the cross-platform app with support for Android, Kindle, Windows, Mac, iPhone, and iPad devices, as well as the web and Family Portal app with smart service notifications for up to 5 devices.

EQUIPMENT, TEAMS, AND ACHIEVEMENTS

Our team is responsible for service delivery and configuration, providing close guidance and support throughout the configuration and marketing process.
