

NETWORK SECURITY

Secure Connection for SMBs

HOW CAN TELEFÓNICA TECH HELP?

Protect yourself when browsing

Thanks to our Cyber Security Service for Small and Medium Businesses, you can operate from your office with the confidence that the devices of your employees are secure against viruses, malware, and any other digital threat. Secure your daily business activity against the risks of cyberattacks.

WHO IS THIS SERVICE FOR?

Small and medium-sized organizations that want to protect their employees' browsing from phishing and viruses, as well as filter the browsing and sites visited from the office but **lack the tools to implement them and the specialized personnel to set them up and operate them on a daily basis.**

OUR VALUE PROPOSITION

Our service

Secure Connection for SMBs is a Cyber Security service for SMEs with which you can securely browse from the office and protect your employees' computers and devices against viruses, malware, and other threats, as well as control the content that employees can access to: web browsing filtering, anti-malware, and anti-phishing.

What does it allow you to do?

This service will allow you to:

- › Protect your employees' browsing from phishing and viruses.
- › Filter browsing and sites visited from the office, including wifi browsing.
- › Obtain information about your employees' access to their browsing.

Benefits

Secure browsing

Instantly blocking virus threats and protect against identity theft.

No investment

No installation required.

Control

Visualize your company's Internet usage with reports on pages visited or viruses blocked.

Prevention

We prevent users from connecting to undesired web pages and downloading malware files.

Telefónica Tech's differential value

This service, provided by Telefónica Tech from the network, does not require any type of software installation. Its activation is immediate and is independent of the operating system and the type of device.

EQUIPMENT, TEAMS, AND ACHIEVEMENTS

Our teams

- › We have a Telefónica Security Operations Center (SOC), made up of highly qualified and recognized experts in the Cyber Security sector that will be dedicated to the specialized and efficient management of this service.

BUSINESS MODEL

In order to purchase this service in Spain, it is necessary to have a Fusión Digital Pymes contract. The price of the Conexión Segura Empresas service is 10€/month per site.
