

PRODUCTIVITY

Microsoft 365 Copilot

HOW CAN TELEFÓNICA TECH HELP?

Telefónica Tech ensures that the integration of Copilot is successful and productive for your organization.

Microsoft 365 Copilot is more than a tool; it's a virtual co-worker that leverages the power of **artificial intelligence** to **transform** the way your organization operates. As a leader in implementing **advanced technology solutions**, we are committed to easing the transition to this innovative platform, ensuring a smooth and effective integration. Our professional

services are designed to optimize the Microsoft 365 Copilot experience, adapting to your specific business needs to drive productivity and efficiency to new levels.

WHO IS THIS SERVICE FOR?

Large organizations: That want to take full advantage of Microsoft 365 Copilot to optimize their work processes, foster more effective collaboration and improve their productivity.

Small and medium-sized organizations: That want to improve productivity, efficiency, and reduce costs by adopting Microsoft 365 Copilot.

OUR VALUE PROPOSITION

Our service

Microsoft 365 Copilot is more than a tool; it is a virtual co-worker that uses artificial intelligence to transform the way your organization operates. Telefónica Tech is

committed to facilitating the transition to this innovative platform, ensuring a smooth and effective integration.

NUESTRA PROPUESTA DE VALOR

Our service includes:

Customized Workshops: Interactive workshops for your team to learn how to use Copilot effectively and maximize their productivity.

Journey To Microsoft 365 Pilot: 3-month experience with required licenses, security analysis and ongoing support through Teams. We evaluate the results of the pilot to ensure maximum benefit from Copilot.

Scaling Microsoft 365 Copilot: Six-month adoption plan with specialized training and personalized follow-up. Includes a champion leader program and a detailed analysis of usage and user satisfaction.

Extensibility Workshop: Workshop to learn how to customize and extend Copilot's capabilities, integrating additional tools and applications.

What does it allow you to do?
