# Perplexity Enterprise Pro

One of the most advanced AI search engines on the market.

**Perplexity Enterprise Pro** allows employees to instantly find answers from verified sources, helping them work faster and more accurately.

A service designed specifically for business environments, with advanced security features, document analysis, and team collaboration.

## What can you do with Perplexity Enterprise Pro?

Perplexity Enterprise Pro is your virtual tutor. It helps you work faster, make better decisions, and reduce the time spent when searching for information.

- **Accurate search**
  Ask complex questions and get clear, up-to-date answers with verified sources.

- **Analyze and summarize documents**
  Upload files (PDF, Excel, images) and let AI give you the key points instantly.

- **Compare and dig deeper**
  Find differences between sources, analyze trends, or study competitors in a matter of seconds.

- **Choose the right model**
  Switch between different AI models (GPT-4, Claude, Sonar) to adapt the response to the style or complexity you need.

- **Collaborate as a team**
  Create shared spaces to research, discuss, and share findings with your colleagues.

- **Apply in any area**
  From marketing or sales to engineering, education, or financial analysis, Perplexity powers workflows with speed and rigor.

## What does Perplexity Enterprise Pro Pilot offer you?

Telefónica Tech provides simple, guided support to help our customers uncover the value of Perplexity Enterprise Pro for their organization through training, support, and evaluation.

The pilot lasts three months and includes:

### License allocation
The pilot includes 50 Perplexity Enterprise Pro licenses for 3 months.

### Customized training
We offer tailored sessions to get the most out of the tool and manage the environment independently.

### Technical activation of the environment
Domain and user configuration.

### Definition of priority use cases
Aligned with business objectives.

### Expert support from Telefónica Tech
Answering questions, proposing improvements, and sharing best practices.

### Impact assessment
We analyze service usage, collect structured user feedback, and deliver a final report with conclusions, success stories, and recommendations for scaling up.

## What benefits will you gain?

- Quickly verify the value that Perplexity brings in a real-world environment, without the need for long-term commitments.

- Users gain autonomy to apply AI in their daily work through training and support, thereby accelerating adoption.

- Usage and satisfaction analysis measures the real impact on productivity and establishes a clear roadmap for successfully scaling the service.
